To Whom It May Concern:

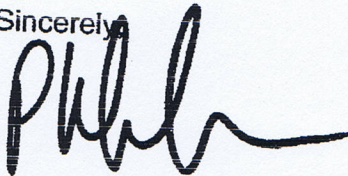

It is with great pleasure to provide this letter of recommendation for Mr. Tony Alfarela and the services of Miclex Construction Ltd.

I have had the pleasure of working with Mr. Alfarela for over 5 years. We first met while I was employed at Lowlaw Properties West as a Construction Manager managing the construction of large format grocery retail outlets in Western Canada. On several of my projects in northern Alberta, Mr. Alfarela was the Project Manager while being employed by Bird Management. Our relationship and dealings continued as he made the move to Man-Shield Construction as a managing partner.

I have always found Mr. Alfarela to be very competent and capable of managing complex projects; both new and renovations. His hands-on and personal approach to construction/project management guided projects through to successful completions on schedule and most importantly, on budget. His attention to detail and high level of standards is second to none.

While constructing retail projects throughout Western Canada, I would consider Mr. Alfarela to be one of the best Project Managers that I have encountered and would not hesitate to engage his services again. If you require any further information as to the performance and/or reliability of Mr. Alfarela, please do not hesitate to contact me directly at Ph. (604) 488-3606.

Sincerely,

Peter Woerler
Project Manager, Commercial
