RE: LETTER OF REFERENCE

Nejmark Architect Inc. is a medium sized Architectural firm of 30 people servicing corporate clients, such as Loblaw, Canadian Tire, Home Depot, CB Ellis, Toronto Dominion, and Land Developers across Canada.

Our firm has been involved with building projects with Mr. Tony Alfarela over the past 8 years. Projects have ranged in value from \$1,000,000 to \$19,000,000. The complexities of projects have consisted from complex renovation projects requiring extensive phasing of construction; to new large projects with fast track timelines.

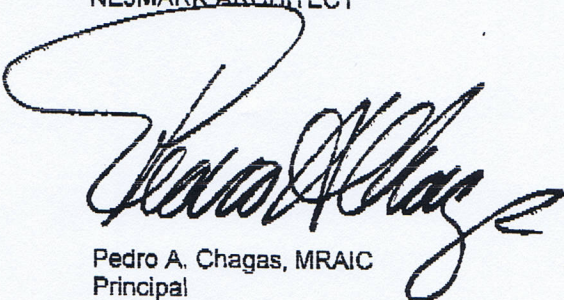

Mr Alfarela abilities as a Builder and as a Construction Manager have always resulted in clients' full satisfaction in the delivery of the projects on time and on budget

Mr Alfarela has also demonstrated a professional approach in dealing with Clients, Architects and Engineers in executing construction contract documents in compliance to provincial Building Codes, Juridical regulations and Safety.

It is my and our firms opinion that Mr Alfarela is as quality Builder with a proven track record in the construction industry. He is an asset to a building construction project and proves consistently to be the right choice for the project.

We welcome telephone inquires regarding Mr Alfarela and look forward to the opportunity to share our thoughts.

Yours truly,
NEJMARK ARCHITECT

Pedro A. Chagas, MRAIC
